
WONDERLAND WORKSHOPS

PRESENTS

Art & the Brain

A 5 day art workshop for children ages 8 through 18

Research shows that natural forms of art, dance and music are activities essential in engaging all the senses which wire the brain for successful learning. Allow your child to tap into the deeply cognitive process of experiencing the skills and thought processes that transcend all areas of human engagement.

Enhance concentration, stimulate areas of the brain with creativity, exercises and strengthen focus through this workshop. June 25 through June 29, 2018. 9 am to 3 pm at Immanuel Presbyterian Church SE (Nob Hill). Tuition \$250.00. REGISTER NOW:
